### **FedEx Ratesheets**

**Customer Name:** Unizo vzw  
**Effective Date:** 04 January 2021  
**Created On:** 14 December 2020

Net rates are not legally binding. The net rate sheets presented in this rate sheet document are for your convenience and are not intended to be an agreement or part of an agreement.

FedEx reserves the right to change pricing at any time.

Net rates for a country only apply to payor accounts in that country.

Net rates are calculated based on applicable transportation discounts and do not include: surcharges, ancillary / other charges, duties and taxes, or special handling fees.

For services with Earned Discounts, actual net rates may vary due to changes in customer's shipping patterns that affect revenue thresholds used in net rate calculations. Similarly, effect of Bonus Discounts depends upon customers' shipping patterns and automation devices.

If ratesheet currency differs from account billing currency, then net rates will not match billing statement. This rate mismatch will increase or decrease with exchange rates fluctuations.

Please review your agreement for complete details or contact your FedEx Representative, Gerrit Junior Vermeulen phone# +32-(497)-478533.

**Belgium Domestic Express Zone Chart**

How to Determine the Rate 1. Locate your origin zone and destination zone using the POSTAL CODE INDEX. 2. On the Rate Scale Guide, find the origin zone on the vertical listing, then find the destination zone on the horizontal listing. 3. The number at the intersection of these zones in the Rate Scale Guide is your Rate Scale. 4. Determine how much your shipment weighs and find the rate in the appropriate column on the FedEx Intra-Country Rate Scale.

Service availability may vary according to place of collection and destination, according to postal codes, and throughout the year. For additional information, please contact Customer Service or your FedEx Representative.
